WORK EXPERIENCE

Java Development Intern - (Cognifyz Technologies)

Feb 2024 - Mar 2024

- Collaborated with the development team to design, code, and test Java-based applications.
- Gained hands-on experience in the full software development lifecycle, including requirements gathering, coding, testing, and deployment.
- Utilized Java SE/EE, Spring Framework, and other related technologies to build robust and scalable solutions.

PROJECTS

E-commerce Web Application - [Link to Demo](#)

Dec 2023 - May 2024

Designed, developed, and deployed a robust e-commerce platform using Java technologies. Leveraged the Spring Boot framework for the back-end, ensuring scalable and maintainable server-side logic. Employed Thyme-leaf and Bootstrap for the front-end, delivering a responsive and intuitive user interface.

RESTful API Development - [Link to Demo](#)

Jun 2023 - Sep 2023

Developed a robust RESTful API using Java, leveraging the Spring Boot framework. Designed and implemented endpoints for managing resources such as users, products, and orders. Implemented secure authentication and authorization mechanisms using JWT. Ensured scalability, performance, and adherence to RESTful principles throughout the development process.

Data Analysis and Visualization - [Link to Demo](#)

Dec 2022 - Feb 2023

Developed a Java application for analyzing and visualizing historical stock market data, providing insights into market trends and performance. Leveraged JavaFX to build an interactive and intuitive user interface, allowing users to explore data effectively.
