

HEMANT DESALE

Java Backend Developer | Spring Boot | Microservices | AWS | DSA
LinkedIn | GitHub | hd.hemantdesale@gmail.com | Portfolio | (+91) 7028799207

PROFILE SUMMARY

Java Backend Developer with hands-on experience building scalable, secure, and high-performance applications using Spring Boot, REST APIs, and microservices. Strong in DSA, system design fundamentals, and cloud platforms (AWS/Azure). Experienced in integrating Redis, Kafka, and AI/ML features into real-world applications.

TECHNICAL SKILLS

Backend: Java, Spring Boot, Spring MVC, Spring Security, Hibernate, REST APIs, Microservices Architecture
Advanced: Role-Based Access Control (RBAC), Spring Boot Profiles, Logging (SLF4J, Logback), API Security, Scalable System Design
Testing: JUnit, Mockito, SonarQube, SonarCloud, API Testing (Postman), Swagger
Data & Messaging: MySQL, SQL, Redis (Caching), Apache Kafka (Event Streaming)
Frontend: React.js, HTML, CSS, JavaScript
Cloud & DevOps: AWS, Microsoft Azure, Docker, Kubernetes, CI/CD, Jenkins
Programming Languages: Java, Python, C/C++, C#
Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Low-Level Design (LLD), API Design, Multithreading

PROJECTS

- Smart E-Commerce System** | *Java, Spring Boot, REST APIs, MySQL, Redis, Kafka* Jul 2025 – Sep 2025
- Built a scalable multi-platform e-commerce system with secure REST APIs
 - Implemented JWT authentication & RBAC for secure user/admin access
 - Used Redis caching to reduce database load and improve API response time by $\approx 30\text{--}40\%$
 - Integrated Apache Kafka for event-driven order processing
 - Developed AI-based recommendation system to enhance user experience
 - Ensured code quality with JUnit, Mockito, SonarQube
- Windows Local Agentic Semantic Search Platform** | *C#/C++, Python, ONNX, Win ML* Oct 2025 - Present
- Built a local AI-powered semantic search engine using ONNX Runtime
 - Implemented hybrid keyword + vector search for accurate results
 - Designed agent-based workflow (sense-reason-act) for query handling
 - Added logging & telemetry for performance monitoring and debugging
 - Optimized performance using efficient caching strategies
- AI-powered Social Media Platform** | *Spring Boot, Android, REST APIs, Redis* Mar 2024 – Aug 2024
- Developed a social networking platform with real-time communication
 - Implemented graph algorithms for friend recommendations
 - Secured APIs using OAuth 2.0 & RBAC
 - Used Redis for session caching and faster feed loading
 - Applied JUnit & Mockito for testing and reliability

EDUCATION

- SVKM's Institute of Technology** Dhule, Maharashtra
Master of Computer Applications (MCA) — CGPA : 7.59 Aug 2023 – Nov 2025
- SSVPS's Science College** Dhule, Maharashtra
Bachelor of Computer Science (B.Sc.) — CGPA : 8.95 Apr 2020 – Jun 2023

CERTIFICATIONS

- Full Stack Java Development** — *Symbiosis & Capgemini* Jun - 2025
- Data Structures & Algorithms using Java** — *LearnYard* Jun - 2024
